PROGRESS UPON COMPROMISE PLAN FOR TREATY REPORTED

Lodge has Accepted Most of Reservations Demanded, is Report at the Capitol.

TREATY IN SENATE
EARLY NEXT WEEK

Hope of Reporting Treaty Friday
Has Been Abandoned by the Leaders.

Expect Adoption of Falls' Resolution on Labor Section

(By Associated Press.)

Washington, September 3.—While republican leaders hope to report the peace treaty to the Senate Friday they said that discussion of the resolution of ratification in which reservations would be incorporated would take some time and might delay a report until early next week. They believe it is certain that the treaty will be brought into the Senate not later than Wednesday.

The committee plans to close its hearings Friday and probably after adopting Senator Fall's amendment to eliminate the labor section, proceed to frame the resolution of ratification and the proposed reservations.

Progress was reported today among republican leaders toward a harmony program on reservations.

A compromise between the republican reservationists is being negotiated with much prospect of success, it was said.

Republican leader Lodge was reported to have accepted three of the four reservations proposed by the group headed by Senator McNary, of Oregon, and dealing with the Monroe doctrine, domestic questions and American withdrawal from the League of Nations.

The reservation reported still in disagreement is that dealing with Article Ten of the league covenant.

SENATORS ACCUSED BY HITCHCOCK

Declares Foreign Relations Committee Majority Trying to Kill Treaty.

Says Opponents Try Microscope While Overlooking Benefits Derived.

(By Associated Press.)

Washington, September 3.—Declaring the real purpose of the Foreign Relations Committee majority in amending the peace treaty was to kill the treaty entirely and that such a course would be suicidal to the United States, Senator Hitchcock of Nebraska, democrat, leader asserted today that the majority of the senators never would accept any of the committee changes.

The treaty opponents, he said, "crawl on the ground with a microscope searching for pitfalls" in the League of Nations and overlook substantial benefits which the treaty would bring the nation.

The proposal of Senator Knox, republican, that the treaty be rejected and a separate peace made with Germany, was characterized by the speaker as an insane "mixture of poltroonery and folly."

COLUMBUS CARMEN GO OUT ON STRIKE ALL LINES TIED UP

Back Pay Wanted and Reinstatement of Meter Reader Among Reasons Assigned.

CAUSES CLAIMED
ARE CONFLICTING

Power Plant May be Closed Down and Most of City Left in Darkness, Claim Strikers

(By Associated Press.)

Columbus, O., September 3.—Columbus awoke this morning to find an unexpected strike of motormen and conductors on its street car lines.

Thousands of workers, who were forced to walk or ride to work on vehicles, were late in reaching their work.

The striking carmen made public their demands as follows:

Back pay granted them by the War Labor Board more than a year ago; Reinstatement of a meter reader, whose case the War Labor Board refused to consider; Closed shop; Eight hour day; Fifty-five cents an hour for the first three months and 60 and 65 cents thereafter.

Union carmen said the real cause of the strike was an alleged breaking of a contract on the part of the company by refusing to arbitrate differences. City officials are busy trying to bring about a settlement. The strikers declare that employees

in the company's power plants, which supply electric current to most of the homes and to many of the larger manufacturing plants and business houses may go out also.

Senator Hitchcock told the President he was positive all amendments to the treaty would be defeated.

WINS PREMIUMS AT STATE FAIR

John W. Townsley, well known breeder of Poland China swine, won a number of high premiums at the state fair last week, with his high type hogs.

He won the junior championship on Poland China male pigs under six months of age; first premium in class on pigs under six months of age; first in the big Futurity \$600 stake awarded by the American Poland China Record Company and championship in the Futurity for six months pigs; fifth on futurity herds; third on aged sows and fifth on futurity herds, so that he carried off more high premiums than any other man at the fair who exhibited a similar number of swine.

The hog show was the greatest ever held in the state, according to Mr. Townsley, who is justly proud of the large number of ribbons won by his hogs.

A short time ago Mr. Townsley sold the sire of the pigs that won the best ribbons, to Bloemendahl Brothers, of Orange City, Iowa, for \$2,000 cash, and Mr. Townsley announces that the animal will head the Bloemendahl Brothers herd, which is one of the best herds in the United States.

MAN DEAD—"JUST AND REASONABLE"

In an audit of the books of the county, State Examiner Bowles has unearthed what he declares is a "rich" find in the shape of a notice attached to a claim for court costs, filed by a justice of the peace in Fayette County.

"N. B.—This Defendant has Died Therefore Didnt Get to Bring him in court I Think This is Just and Reasonable."

The "Last Word" In Suits And Coats

THE newest suits and coats have just arrived and bring with them the most authentic news about the approved silhouette, favored materials and popular trimmings.

Both coats and suits insist on the straight line. Coats have rebelled against the old idea that to be warm they must be bulky. This year coats of warm soft fabrics fall straight from shoulder to hem.

The "Grenoble" is one of the most interesting Wooltex designs—it flares smartly on both sides and remains flat at front and back.

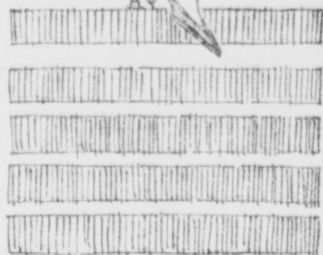

Wooltex suits are divided into four distinct and individual types with many variations of novel embroideries, odd stitchery and clever paneling. There's the severe "Tailleur," the Blouse, the trimmed Tailor-Made and the Country Suit; which means that you can find the newest style tendencies interpreted in your own type.

We recommend Wooltex, because the Wooltex label promises superior fabrics so carefully tailored that the correct lines remain throughout the season.

Joe Jackson and his lead.

Although the outfield of the Chicago White Sox averages up well in hitting, it has been a disappointment to the Chicago fans. Two years ago three members of it were traveling in the charmed circle. Joe Jackson, Eddie Murphy and Happy Felsch were hitting over 300. John Collins and Nemo Leibold were weak, but rested on the bench most of the time. This season it was hoped that the Sox gardeners would hit their old stride and do the lion's share in wrecking the hopes of the other A. L. clubs. Jackson is hitting harder than ever, but Felsch, Collins and Leibold have failed to strike a fast pace.

WILMINGTON NEXT ON LIST

Next Sunday, the Wilmington Clintons will come to this city to meet the Washington Athletics at the Sunnyside ball ground. Although it has not been definitely decided, it is expected that the series will consist of five games while there is some talk of shortening the series to three.

Starting Sunday, with the first game on the local lot, the two teams will clash at Wilmington the next Sunday and then back here the following Sunday, thus completing the series if the three game contract is made.

It is understood that the opposing teams have complied with the rule of importing players and the two teams will take the field each contest with their usual lineup. This will tend to make the games more even than if some big leaguers were signed up to work with either team.

OLD COURT HOUSE BRINGS \$41,030

The old Clinton county court house at Wilmington, which was sold at public outcry, Thursday, was bid in by H. E. Schmidt of this city, acting for the First National Bank of Wilmington for \$41,030.

A new home for the banking house and business block will replace the old temple of justice. It was not at first known that Mr. Schmidt was acting for the bank in the purchase of the building, but this fact became public and was admitted by banking officials.

Dr. G. W. Wire, of Wilmington and Mr. Schmidt were the two bidders.

Two other tracts belonging to the county were sold at the same time, M. R. Denver and John Egan paying \$500 each for the tracts.—Xenia Gazette.

NO USE TO APPLY UNLESS COMPETENT

A large number of persons are applying to the respective member of the County Health Board for the job of Health Officer, and some of the applicants are said to know nothing at all about such work, and could not possibly qualify, as it requires a medical graduate with numerous additional qualifications for the job.

It also is necessary, it is announced, for the applicants to pass the state civil service examination for such officials, so that persons attracted by the salary to be paid in this county have no show for the job unless qualified.

WANTS DAMAGES IN SUM OF \$2500

In Common Pleas Court Wm. R. Collopy has filed action in which Carey Persinger is made defendant, asking \$2500 damages for injuries sustained on the Circleville pike, near Johnson's Crossing, last February, when, according to the plaintiff, he was struck by a machine driven by the defendant, and seriously injured. Maddox & Maddox represent the plaintiff in the action.

M. P. KNUDSEN WILL SOON TAKE CHARGE OF LOCAL CONCERN

M. P. Knudsen, of Union City, Indiana, who as manager of the J. A. Long Creamery Company at that city, recently tendered his resignation in order to take charge of the Sunlight Creameries in this city in the capacity of general manager, was highly honored by a banquet given by his friends recently.

Mr. Knudsen has had charge of the long Creameries at Union City for the past five years, during which time he plant has grown to be the second largest in the world. His association with the Sunlight Creameries in this city will begin early in November, it is announced.

According to Union City Eagle, the J. A. Long Company, under the management of Mr. Knudsen, has paid out more than four millions of dollars to the farmers for their products during the past year. As manager of the Sunlight Creameries, it is expected that he will pay out much more to the farmers of this part of Ohio each year.

At present Mr. Knudsen, who is a business man of marked ability, is on his way to Denmark to visit relatives.

KICKED BY HORSE LEG IS FRACTURED

William Strosnider, a farm hand on the Hidy farm above Bloomingburg, was kicked by a horse, Tuesday, and had both bones in his right leg broken below the knee.

Strosnider was riding on the front of a wagon behind his team when he struck one of the horses with the lines. The horse kicked, striking him on the right leg.

It is thought that his fall to the ground was responsible for the compound fracture, that the horse broke one of the bones and that the other bone was broken when he fell from the wagon.

The fracture was set at once and although the break is a very bad one the injured man is resting easy.

EXPERT ALLAYS FARMERS' FEARS REGARDING MOTH

Presence of Meal Moth in Seed Wheat in Fayette Results in Investigation.

Expert Also Announces Chiggers Prey Upon Joint Worm in Wheat.

Farmers on the Prairie pike were somewhat alarmed last week when they discovered an insect which was working in wheat stored for seed. The insect wove a web around a number of grains and in the midst of which it deposited its eggs.

At the time of discovery last week small moths had developed from the eggs and were flying around in the bin. The wheat had been stored less than six weeks.

The presence of the insects was reported to the Fayette Grain Company which brought it to the attention of the Farm Bureau, and the Farm Bureau immediately took up the matter with the State Experiment station. An expert Prof. J. S. Houser was dispatched to this county at once to investigate.

After a careful examination of the wheat at the farms of Mr. G. T. Morgan and of Mr. Leondies Baughn who bought seed from Mr. Morgan at threshing time, Mr. Houser pronounced the insect, Indian Meal Moth, almost harmless. The moth will, of course, damage wheat which is in storage as well as many other things such as clover seed and other grains, dried fruits, graham crackers, etc., but by running the wheat through the fanning mill the cleaned seed will be free of the insect so that nothing of the kind will be propagated in the field by sowing.

Chiggers Kill Joint Worms
 Mr. Houser gave some solace to those who have been suffering from chiggers at the time of handling

Old Shoemaker Now Has Stomach as Good as New

Freed of Constipation and Indigestion by Dr. Parker's Treatment.

When a person reaches the age of 45 the stomach is apt to be finicky. But W. A. Martin, Barbersville, W. Va. tells a story interesting to old and young. "For years I suffered from indigestion and constipation. After taking all kinds of medicines, I was told by a friend to try Dr. Parker's Treatment for Indigestion and Constipation, saying he would himself refund my dollar if I did not get relief. The first box gave the relief I had been hunting for years. I am no longer bothered with sour stomach, gas and foul breath, can eat any food although I am now 65 years old."

wheat straw this season by stating that these chiggers are one of the parasites that prey upon the Joint Worm of wheat. This Joint Worm is the chap which has sent so many short pieces of straw to the market the past few years, because of its having bored the straw full of holes and also made it hard and brittle.

MAN VERY ILL FOUND ON STREET

A man, giving the name of Alabama Rosebud, colored and his address as 226 Naughton street, Columbus, was picked up on Paint street late Tuesday evening, suffering with kidney stones.

When found he was about to fall from his junk wagon to the ground. He was removed to the Fayette Hospital where medical treatment was administered.

The man claims to be a junk dealer and had come to this city with the purpose of buying junk.

MANY ACCIDENTS DRAW ATTENTION

Many are commenting upon the number of accidents of more or less seriousness that have occurred during the past two or three weeks. An "epidemic" of broken arms, broken legs, fractures and mashed and cut fingers seems to have taken hold of community.

It is said by the local doctors that nothing to compare with it has ever occurred in the line of accidents. More accidents of various kinds have taken place in the last three weeks than have happened in a year previous to this time, it is said.

GREAT YIELD OF SWEET CORN

Five and one-half tons per acre on eleven acres is said to be the highest acreage for sweet corn among local growers this season. The corn was grown by George Hays for the Sears & Nichols Canning Company. The corn is known as Stowells Evergreen and is of an unusual large type.

Several of the record breaking ears are on exhibition in the display window of the Katz Clothing store and are attracting a great amount of interest because of their size and systematic exactness.

TAKES TRAINING AT CINCINNATI

Glenn Murphy, who was severely wounded in one arm while in service at the front, has gone to Cincinnati to take vocational training, and has chosen dry cleaning as his future occupation. He formerly was employed as wagon man at the Larimer Laundry in this city.

AUTOS COLLIDE TWO ARE INJURED

Sunday evening near Johnson's Crossing an automobile driven by Earl Lininger and an automobile driven by Herbert Cockerill came together while both machines were traveling at a good rate of speed with the result that Mrs. Cockerill and the small son were thrown against the windshield and suffered several bad cuts about their faces.

The two machines were damaged considerably.

DOVE HUNTING IS NOT ALLOWED

ruled that dove hunting in Ohio, which it was recently announced would be allowed, will not be permitted under the laws regulating the killing of migratory birds.
